Important news that may affect your clients

The No Surprises Act (NSA), enacted as part of the Consolidated Appropriations Act, 2021 (CAA), includes transparency provisions requiring to both grandfathered and non-grandfathered group health plans, and health insurance issuers in the individual and group markets, to submit information on prescription drugs and health care spending to the Departments of Labor Health and Human Services and the Department of Treasury and the Office of Personnel Management (The Departments).

This prescription drug data submission is called the RxDC report and is collected by the Centers for Medicare and Medicaid Services (CMS). RxDC Report for 2023 reporting year is due on 06/01/2024.
