

Small Business dental plan mapping for withdrawn plans

Starting January 1, 2025, the Small Business dental plans listed below on the left will no longer be available. In the table you will find a mapping document organized by group size (1-50 and 51-100), which shows the new plans that groups will be enrolled in upon their renewal. We've selected plans that have similar designs, and in most cases, are offered at a lower rate. Please review the Summary of Benefits for each plan to confirm benefits. You can also compare available dental plans by visiting blueshieldca.com/employerplans.

What do you/your clients need to do?

If your groups are happy with their new plan selection, you don't need to do anything. However, if they would like to select a different plan, please reach out to your Blue Shield representative and they will help find the plan that fits your clients' needs and budget.

What do employees need to do?

Employers need to notify their employees of the plan change and should follow normal open enrollment procedures.

Groups with 1-50 employees

Small Business dental plans no longer available starting 1/1/25			Groups will be mapped to the plans below upon renewal
